

## Prekindergarten

(4 years old by Sept. 1)

18 students with a 1:9 teacher:student ratio

### Prekindergarten Curriculum:

The prekindergarten curriculum at St. John's is designed to fully prepare students for kindergarten. We provide hands-on learning experiences that are both teacher and child directed. Cognitive skills such as emergent literacy, science, math, and social studies are developed through the use of interest areas. We also build physical health, support social and emotional development, and encourage creativity through music and art.

### The Daily Schedule Includes:

Journal Writing	Group Time (calendar, weather, themes)
Teacher Directed Learning Activities	Art Exploration
Jesus Time & Chapel	Center Time (science, blocks, dramatic play)
Library	Snacks (a.m. & p.m.)
Music & Movement	Physical Education
Lunch	Outdoor Play
Computer Instruction	Quiet Reading

### Our Beliefs:

As commanded in Matthew 28, we believe in spreading the Gospel message that Jesus our Savior loves us, has forgiven our sins, and desires us to spend eternity with Him in heaven. To that end we support spiritual growth through the reading of Bible stories, teaching Bible truths, and providing opportunities for praise, worship, and prayer.

### St. John's Facility:

The bright, well-equipped classrooms, located on ground level, are spacious and filled with natural light. We have a full sized gymnasium along with a large collection of equipment to encourage large motor skill development. The large, outdoor playground is located just outside our doors. We are also blessed to have an extensive library and a newly upgraded computer lab. Our facility remains locked throughout the day. An electronic monitor controls access into the building.
